

What Size Treat Should I Choose For My Dog?

All Wholesome Hide treats are made from sturdy, fresh, USA sourced beef hide which ensures maximum safety. But you still need to make sure you choose the right size treat for your dog. The correct size treat can't be consumed quickly (less than 20 minutes) and can't be broken up into large pieces and swallowed whole. A good rule of thumb is to always pick a size a little bigger than you might first imagine. Go bigger with aggressive chewers, too. Here are a few more suggestions.
